Invitation to Submit Applications: Compensation for Acquired Farms Protected Under Ratified Bilateral Investment Protection and Promotion Agreements (BIPPAs)

Background

The Government of Zimbabwe developed and adopted in 2021, the Arrears Clearance, Debt Relief, and Restructuring Strategy to facilitate the process for the clearance of the country's external payment arrears and resolution of debt. Pursuant to this, the Government of Zimbabwe established in December 2022, a Structured Dialogue Platform to institutionalise engagement with all its creditors and development partners towards arrears clearance and debt resolution, premised on reforms in three major areas viz. (a) Economic (b) Governance, and (c) Land Tenure, Compensation of Former Farm Owners, and Compensation of farmers protected under Bilateral Investment Protection and Promotion Agreements (BIPPAs).

The Government of Zimbabwe made a provision of US\$20 million in its 2024 National Fiscal Budget towards the financial compensation of farmers protected under BIPPAs. This National Budget allocation is targeted towards compensating farmers whose farms were acquired, and who are nationals of countries that signed BIPPAs with Zimbabwe which were ratified before the commencement of the Fast Track Land Reform programme, that is, BIPPAs that were ratified before the year 2000.

The Government of Zimbabwe programmes this as the first instalment towards full compensation.
